## WHAT IS ESOTERICISM

The **Esotericism** constitutes the most ancient transcendental **Philosophic System**. It is the emanation of **esoteric** and **spiritual experiences** of Great **men** and **women** who left their personal stamp through their high spiritual works which formed **diachronic STANDARDS of thought**, searching, consistent and integrated **answers** and **orientation** in the deeper **existential** and **ontological matters**.

The Esotericism, on the basis of the above, examines and informs about the **Roots** of the **Truth**, aiming, except the supply of a reliable **Esoteric Education**, to give all the required **practical means** for the effectuation of the **Know Thyself** by every fellowman who is interested in that.

That is to say, in parallel with the search, study and teaching of the not apparent laws that rule the life and the Creation in its substance, it is the communication and the recognition of **our inner Self** and in its high expression the approach of the **Divine**.

Some of the most principal branches of the Esotericism that are being taught, are the following: Meditation, Esoteric Therapeutics, Esoteric Initiation, Esoteric Philosophy, Hypnotism-Orthopsychism, Scientific Spiritualism, Astrology-Astrosophy, Desymbolism, Ancient Mysteries, Antediluvian Civilizations, Philosophy of the whole Yoga, Occultism (Cabalism), Mysticism etcetera.

## THE MEANING OF THE WORD OMAKOIO

The word **Omakio** is compound from the "omou (together) akoume" (we hear). So, we hear a high **Esoteric-Spiritual teaching** (om akouin: we hear the OM, the perfect sound).

The **Omakio** was established for the first time by **Pythagoras**, in the middle of the 6th century before Christ in **Croton** of **South Italy**, and it constituted the first true school of mass initiation in the exoteric and mainly in the Esoteric Truth for its time but also generally, for the history of the ancient and new Greece-West, while in parallel it formed the proper educational and philosophical presuppositions for the incarnation of the Divine Word, **of Jesus Christ**.

2500 years later, **Nikolaos A. Margioris**, the Greek spiritual Master (1913-1993), established his own school in **Athens** in **1976** under the same name (he wrote more than **189 revelatory esoteric works** of various coverage and of deep analysis and he left immense and diachronic stocks for study and development) and hereupon in **Lamia** (1990) and in **Trikala** (1992).

The **Omakios of Trikala** and **Thessaloniki** have been bestirring instructively **since nineteen years** while in parallel they give their present by the circulation of the **189 works** of master **N. Margioris** and by the **edition of books** and of **essays**, by many verbal teachings and views of **Nikolaos Margioris**, as **Ilias Katsiampas**, his **student**, **instructor** and **cooperator for a decade**, responsible of the above editions-schools, experienced and recorded them.

EDITIONS  
OMAKIO  
OF TRIKALA

Master **Nikolaos A. Margioris** (1913-1993) while he is writing the A' volume of his work **Mystic Teaching** of three volumes. It is noted that during the writing of his **189 works** – except some necessary exemptions – he **did not** use any bibliography because he used to write directly from inside, in an “automatic” way, with the **power**, the **knowledge** and the **light** of his **soul** for every matter that he analyzed.

**Nikolaos Margioris** was a contemporary **experiential neopythagorean** and **neoplatonic metaphysical master**, founder of the **Omakoios of Athens, Lamia** and **Trikala** and a **christocentral** and **christocratic mystic**. Within **23 years** (1970-1993) he wrote about **189 esoteric, practical** and **spiritual writings** and he taught for a series of **35 years** (1958-1993), the **Esoteric Truth** in Greece, delivering all the necessary practical means for its approach.

The teaching of N. Margioris consists in the **harmonious coexistence** of the **ancient Greek, Egyptian** and **Indian mysteries** with the **inner Christian tradition**. But it is chiefly filtered, relives and is crowned through his deep, esoteric and **mystic accomplishment**, that contributes to the “cash” of the spirit and by his **personal Revelation**, that is his own **unprecedented experiential deposit** for the **Theogony, Cosmogony, Ontogony** and **Eschatology** of the **Creation**.

He first established in Greece the **Omakoio of Athens** in **1976** in **Athens** in honor of **Pythagoras** and for the revival of the Pythagorean views.

In the autumn of **1990** he inaugurated the **Omakoio of Lamia** of his students **Dimitris** and **Koula Tsapara** and in **January 1992** the **Omakoio of Trikala** of his student **Ilias Katsiampas**.

After his metastasis the establishment of more **Omakoios** followed by his **students-instructors** throughout Greece, among which we record the **Omakoio of Thessaloniki**, the **Pythagorean Omakoio**, the **Omakoio of Loutraki – Corinth, Comotini, Piraeus, Corfu, Rhodes, Karditsa** and **Glyfada**.

The **Omakoios** of Master N. Margioris constitute **autonomous, self-contained** and **independent Schools** of teaching the **Esotericism** (Occultism and Mysticism), the **Yoga Systems** and the methods of the **Esoteric Therapeutics**. In parallel, they are ruled by the **Pythagorean Bond** among them. Relevant **Presentations – Comprehensive Dedications** of **N. Margioris** have come before in the magazine “**Avaton**”, issue of September-October **2002**, in the magazine “**Third Eye**”, issues of December **1992**, September **1993**, and next of May **2004**, also in the special slip magazine “**Phenomena**” of the **Free Type**, in the magazine “**Yoga**”, issues of October **2008** and of January **2010**, in **sites, interviews, books** of many other writers, his students and else.

Specifically, in the magazine “**Third Eye**” in the issue of December 1992, he was characterized as **Patriarch of the contemporary Greek Metaphysical Philosophy** in an interview that he gave a few months before his physical death.

In a relative presentation of his in the magazine **"Avaton"** by his student **Ilias Katsiampas**, in the issue of October – November 2002 and in the frames of the dedication for the **Greek Mystics**, he was characterized as **Christo-central Mystic** by the magazine.

To note also that in **February 2009** **Nikolaos Margioris** emerged as the **60th** among the **100 Great Greeks of all the times** in the frames of a holding of an **open vote to the public** that took place in April 2008 by the **television channel SKY**. The 100 persons who emerged were advertised by the channel in **16 and 23-2-2009**. This exposure on **television** of four hours circulated also in relative **DVDs**. In parallel, the **SKY** published a work of **three volumes** with the 100 Great Greeks in which N. Margioris chanced of a relevant analytical presentation about his life and his work by his student **Ilias Katsiampas**, with additional elements that were given by his son **Andreas Margioris**.

Except his **profound** and **rare written word**, he left behind him an **immense** and **diachronic - revelatory wealth** of verbal spiritual stocks on the whole gamut of the **Occultism** and of the **Mysticism – Theosis** that if ever can be captured literarily, it will be able to surpass the writings that even Adamantios Orighenis is estimated to have written.

The bright and multidimensional spiritual work of N. Margioris constitutes an invaluable and of maximal value **Esoteric DIAMOND – CAPITAL** for Greece and for the world, coming from one of the Great spiritual children of modern Greece, which will undoubtedly remain unforgettable and advantageous virtually in the history of our country.

The **ectoplasm** is spiritmatter or **ethereal matter**. By it the fleshless beings are materialized and change into embodied beings. It contains a good many and curious qualities. It comes out of the holes of the body, the head, the breast, the generative organs, the hands and the feet. ## 14. DRAVIDIANS, THE PRE-GREEKS OF THE AEGEAN SEA

In it, appear the distant ancestors of the Greeks, the Dravidians (antediluvian people) who by their civilization had got ahead in highest points of technical and particularly spiritual grandeur.

As it is described, they were deadly enemies to their relatives, the **Atlantins** and finally both these people managed, by the blame of the Atlantis, to be mutually destroyed. This happened about **sixteen years** ago and their tragic country, **Hinterland**, changed into the **today's Mediterranean Sea**. **Deukalion** and his wife

**Pyrra** came from there when their wooden little ship sat on Parnassus.

Those who were saved on the tops of the mountains of the sunken Hinterland, continued their life with their new dream: to leave towards the stone-still East. Thus, after a few years the greatest immigration of peoples in the area took place.

The majority of all those who remained with their descendants left to the East, where in their course they built the renown states **Mohenzo Daro** and **El Harrapa** and they conveyed their spiritual lights (yoga, religion etc). Then, they drew from the familiar valley of Hindu and they settled down in contemporary India. India is a fraternal country to Greece.

### 15. THE CONTROL OF THE VIBRATIONS

In it the **catalytic role** of the **pulses** or the **vibrations** appears, that is everything in the esoteric recognition of the worlds. All vibrate in rhythmical rendering: from the individual and on to the universes and from the individual to the structure that we call man.

When these vibrations attenuate or get extra-tended a different state comes to man, that we characterize disease. The therapeutics of the throbs or otherwise the control of the vibrations aims to keep the causes of transmutation of the familiar rhythm of the physical vibrations.

**7,00 Euro, Republication 2011, 10,00 Euro**

### 16. WHAT IS ESOTERICISM

**Esotericism** is the other side of the exteriority. It is the opposite of everything expressed. Esotericism is the area of the invisible. There the **spirit soul** of man reigns. It is the area of the **Omnicreation**, where the spirit souls flock and where the physical man mind cannot enter and accept their high throbs. Who enters once doesn't forget and doesn't let his amazed man thought recede from there.

Esotericism teaches and enlightens as much as possible, in the physical state of the man mind the facts that take place in the area of the Omnicreation that lies beyond the visible.

Some of the most principal branches of the Esotericism that are described in the essay are the following: Meditation, Esoteric Therapeutics, Esoteric Initiation, Esoteric Philosophy, Hypnotism – Orthopsychism, Scientific Spiritualism, Astrology - Astrosophy, Desymbolism, Ancient Mysteries, Antediluvian Civilizations, Philosophy of the whole Yoga, Occultism (Cabalism), Mysticism etcetera.

### 17. HOLY CYLINDER OF THE ESSENES' REGULATION

In it we learn **how lived** and **how worked** those saint people of the time of Christ who were his countrymen and perhaps his like-minded. The holy Cylinder of the Regulation of the Essenes gets us out from many queries and too many assumptions. By it we see the **Essene really** devoid of the world and dedicated in his mystic exercises.

Thus we know a **discipline** that an **Esoteric disillusionment** that did those who helped **Jesus** to perform his saint work on the earth, to appear. One supposes that from the discipline of the Regulation, from this holy Cylinder the necessary Disillusionment of the assistants of Lord Jesus Christ, emanated. **Ioannis the Forerunner, Ioannis the Theologist** and Evangelist and maybe many others, studied near the Biblical saints of the notable Essenes who possessed the saint attributes of the Esotericism.

In the beginning it was the Word. It is this word that Ioannis uses. The Essenes used this word...

### 18. EROS AND LOVE

In it as much **Eros** as **Love** are described. The history starts from the Symposium of Plato.

What is eros exactly and what does it aim? Lest other gross and matter-low situations are hidden behind it, that are expressed in the physical areas of the lowest objectivism? So, this eternal problem stands forward. If the carnal union of two men constructs the mancar in order that a coming down man soul, belodged, does it justify it?

Eros is the natural tendency of man to find again the initial perfection of his substance. In order that Eros can elevate to this saint destination, it must be accompanied by the beauty of Love.

What is Love? Love is the preparation for this perfection. When Eros reaches to coalesce with Love, then the accomplishment has covered the lowness and the elevation of the man-animal forever and the elevation of the man-animal has reached that area of the spirit where the dominance of the matter doesn't get into.

### 19. PROPER NUTRITION WITH A RELATIVE DIET

It is an **essay mammoth**. It prepares the reader to enter the **mystery of his nutrition**. He learns the last evolutions on the matter of the three basic kinds of his nourishment: Carbohydrates. Proteins and Fats.

The **combinations** of these three primal foodstuffs in his organism with the vitamins and the metallic salts give an

interesting attitude of the man against his responsibilities to his health and his life themselves.

A **coalescence** of the **very ancient cognition** for the **food** and the life of man, with the **today's advancements** of the science bring the solution to many questions and prove that in our organism infinite facts take place that can be controlled.

This will take place when the man will get have been informed which of the known foods he must use, in what analogy and in which intervals. Then the calories will be used in order to keep the physical health in the frames that mother nature has prepared for man and particularly in relation with an esoteric course the food of man must be ruled of the moderation and be as balanced as possible.

In it the heavy psychic (noetic) diseases of the Mind are examined. The **psychastheny (mind disease)** and the **psychopathy (mind affection)**. In these two illnesses all the relative names of the Mind diseases we have heard of at times, are contained.

As it is described, the **psychasthenies** are **accomplishment** diseases of the conscience, while the **psychopathies** are **hereditary** diseases of the subconscious.

The value of the therapist lies in that he moves by his own perfect and harmonious thought, the faltering thought of the ill and to harmonize the two thoughts in only

one thought, that vibrates harmoniously and physiologically both the two man brains.

Margioris, a contemporary Christocentric and Christocratic Mystic.

An unprecedented Eschatological Conception of the Divine Expression, of the Laws that rule it and of the Beings that live and develop inside it.

An important spiritual interpretation-teaching that was given by word of mouth of the Master and that is stated today to the large public by his student – writer Ilias Katsiampas who, through lengthy analytical comments, clarifies the matter of the divination and the consummation words that float around us, always based in the Perfect Mystic Perception of Master N. Margioris and the generally spiritual tradition that comes from all the Great. Finally, it defines the evolution of our time and it “destines” the future in relation with the technocratic development and mainly with the spirituality that opens before us.

An inestimable Esoteric Gem that must not lack from any library. The interested will find a full personal analytical experiential exegesis in the Cosmogonic, Ontological and Eschatological in the writings of N. Margioris “Birth and Death of the Words”, “Posthumous Life” and “Esoteric Philosophy”. The edition is bilingual, in Greek and in English and it has been honored with the Second Award by the International Union of Greek Penmen and with a series of other laudatory comments by different personalities of our country.

A bilingual cohesive Greek-English edition.

In the frames of a first **book - guide** for the **prayer**, its **meaning** and its **value** In the frames of a first **book-guide** for the **prayer**, its **meaning** and its **value**, it was judged as necessary that as many as possible pieces of the saved prayers of **Nikolaos A. Margioris** be gathered and appear, because they

comprise within them the vibration of the spirit, as it came out from the human lips of a spiritually accomplished being, which has as result that they stimulate, teach, admonish, inspire, move and create the necessary **psychic exaltation** for **change** in the human being that comes along in **humbleness** and in **disposition** of **self-delivery** to the **Lord** to take the **Bread** and the **Wine**, the **Body** and the **Blood** of the **Lord** in the **visible** and in their **invisible** and **Unbuilt Hypostasis**.

Except the capability of the preservation of the prayers in question in the time, the genius and the experiential psychism of Nikolaos Margioris are depicted lively while

many fellowmen of ours are given the opportunity to find and to profit also of the **religious experiential outlet-support** that in our days, though it exists beside us, is rather neglected or many times it is executed typically and without its meaning and the abilities that still inhere in the man's psychology, being understood.

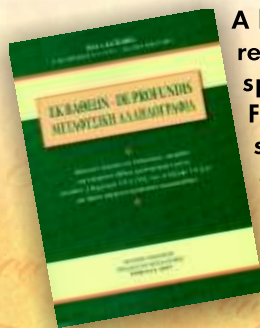

Then, the aim of the book is, from the one side to give a **central esoteric idea** about the matter of the **prayer** prompting every man to use it whenever he can, and in parallel, to **collect** and to **preserve** in the **time** important prayers and poems of **N. Margioris** that are considered as **guide posts** for the correct orientation and our edification in the true standards of all the Great of the spirit, of the Inner Self, of the **Life in Christ** and of the **One Divine Truth**.

The prayers that are registered in the present work, as well as many of his **189 books** have appeared or written by same through the prism of his transcendental, intuitive and mystic experience as a christocentral and christocratic mystic.

The book was honored with the **First Award** by the **International Union of Greek Penmen**.

**12,00 Euro, First Edition 2004, 198 pages, 24X17 cm**

In about **400** pages **plenty of consecutive, deep and difficult to answer questions** find **clear answers** and **most comprehensive important analysis** aiming to **enlighten** every possible fold of the emerged matters.

All the answers is the emanation of the transcendental Greekcentral and Christcentral experiential standards of Nikolaos N. Margioris, the contemporary spiritual Master (1913-1993, he wrote more than 189 works), appeared through the pen of his student Ilias L. Katsiampas (writing of 14 works).

The present book hopes to contribute to the responsible and Consistent Metaphysical Informing (Occultist and Mystic) according to N. Margioris as well as to all the Great of the Spirit.

And it is accompanied by three revelatory interviews, biographical notes and a series of links in which informative esoteric articles on the Esoteric Therapeutics, the deeper side of Yoga, the relation between the Master and the student, the Mass Media and others, are hospitalized.

Finally, a Proposition – Suggestion appears for the establishment of an Institute – Academy of Nikolaos A. ## **Ilias L. Katsiampas**

was born in October 30th 1965 in Trikala of Thessalia, where he grew up and stays today. He is a graduate of physical training (TEFAA), he has a journalist service of **nineteen years**, he

is the writer of **14 esoteric works** and he is the **editor** of the daily political newspaper of Trikala "THE SEARCH". He has married to Sofia A. Skoumi with whom they have got two children, Lambros and Maria.

From a very young age he expressed intense esoteric anxieties for the searching of the substance of the things, of the real meaning of life. He researched many philosophical systems, he studied volumes of Esotericism books of every kind, period and country, until he met **Nikolaos A. Margioris**, the Greek Master of the Esotericism (1913-1993), in the spiritual work whose he apperceived the **substantial Knowledge**, the **upmost real truth**. He became his student, he went together and cooperated closely with him from 1983 until his physical end, in May 6th 1993.

He was taught in all the important systems and practices of Yoga and he became, for a series of years, communicant of plenty other esoteric and spiritual knowledge in various matters (Esoteric Philosophy, Esoteric Theology, Mysticism, Astrology – Astrosophy, Hypnotism – Orthopsychism, Scientific Spiritualism, Esoteric Therapeutics, Sleeping etcetera), by ascending gradually the steps of his spiritual evolution.

The fiery and indomitable inclination and will of the writer for the Further, combined with the

education, apprenticeship and personal relation with his Master Nikolaos A. Margioris for nearly a decade, contributed indeed in the gradual formation of an accomplished well-defined experiential perception - view about the whole circuit of the Metaphysics.

In **January 18th 1992**, with the full encouragement, the guidance and the presence – inauguration by his Master, he inaugurated the **Omakio of Trikala**, an **educational – spiritual center**, where until today have being taught all the systems of **Yoga** (Steamliquefaction, Mantram, Kriya, Raja, Karma, Gnani, Bhakti, Koundalini – Sahaya and Childish Yoga), **Esoteric Philosophy – Theology, Esoteric Therapeutics** and generally **Esotericism** (Occultism and Mysticism). From 1999 he has been activating also in Thessaloniki, under the significant title **Omakio of Thessaloniki**.

He holds and marks the utmost necessity for a broad teaching of the **Esoteric Education – Culture** (Introversion – Know Thyself) for the creation of healthy and balanced minds and of a really New Spiritual Man with self-knowledge, self-contain, autonomy, expanded Mind, disposition of offer, devoid of materialistic pettiness and frustrations, proper to harmonize and to correspond better to the given of the modern reality, as well as of every future time of the Humanity.
